Our mission is to advise, source and efficiently deliver professional audio and lighting products that offer great value for money! Being primarily an online operation; we are able to keep our real world overheads to a minimum. These savings are reflected in our very competitive everyday prices on all products. You can be assured that we are here for the long haul and will be here in the future in case you require product support.

Our main focus is on customer service. We don't mind going the extra distance, to either help you and the equipment you are looking for or get your order to you as quickly and as efficiently as possible. If we can't help you with your enquiry we will always try to steer you in the right direction. We won't try and sell you something that you don't need.

MatrixPRO can provide you services for studies, design, supply, installation and long term after sales services for the scope of all your AVL projects.

As MatrixPRO our goal is to supply energy and its transmission for systems such as general lighting, network, automation, AV and lighting, communication, closed-circuit cameras (CCTV) and access control systems while designing and performing the application between the main and sub panels.

We are aiming win-win cooperation with our clients and keeping a key role in order to establish an effective risk and cost management sustainability.

# PROFESSIONAL AUDIO SYSTEMS

MatrixPRO can supply and install professional and commercial audio equipment for a wide variety of venues and applications while carrying the absolute best sound equipment available worldwide for your budget and utilizes premium audio processing technology to ensure that the highest quality sound experience is delivered.

Our products in audio inventory includes a multitude of sound equipment such as microphones, wireless monitoring, line array enclosures, subwoofers, small PA speakers, amplifiers, audio racks, a diverse mix of digital & analog consoles, processors and control equipment for large scale concert or multi purpose venues, theaters, cultural centers, stadiums, cinemas, hotels, restaurants & studios. Also we are covering governmental & corporate areas such as boardrooms and office buildings, public & commercial spaces such as airports, stations, hospitals, schools & universities and shopping malls.

# CONFERENCE & INTERPRETATION SYSTEM

Both in the room and in adjoining rooms, Matrix Pro has the target to provide your multi-lingual audience the best experience ever. The very user-friendly simultaneous interpretation systems are used to give the participants the capability of concentration to the purpose of meetings or events.

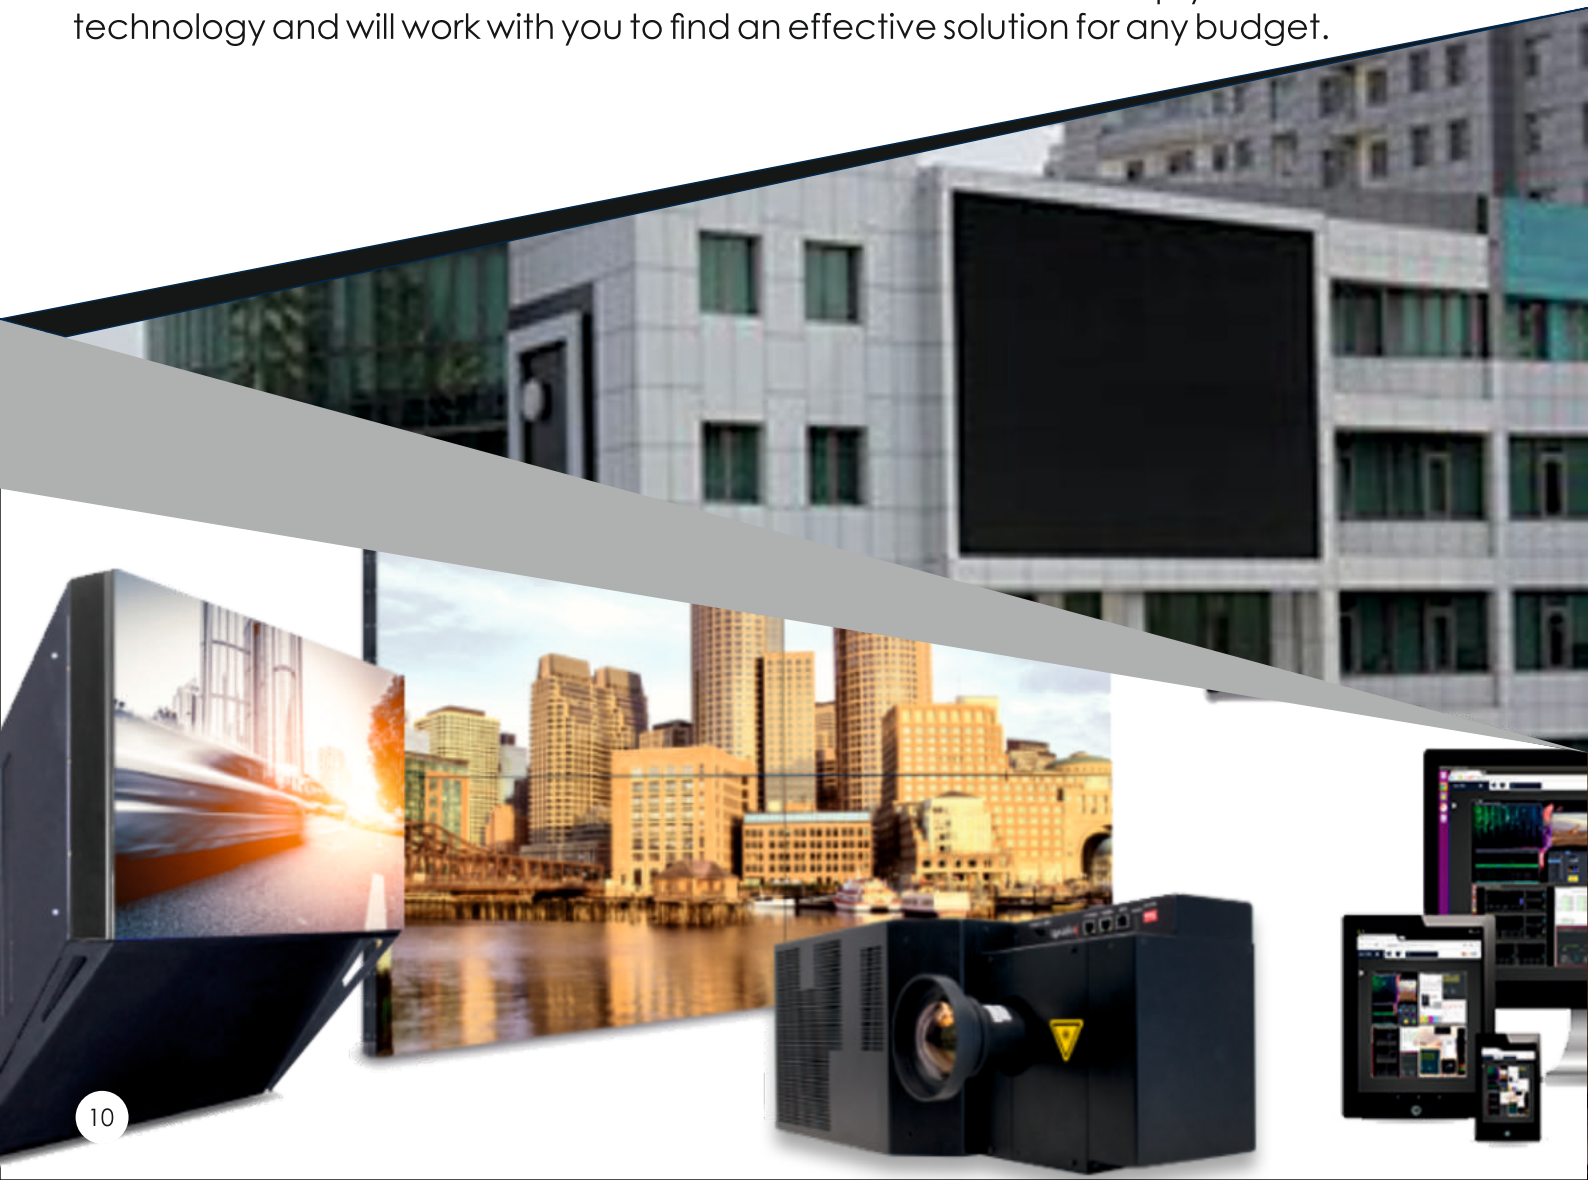

Components are carefully selected to distribute the sound in high quality and being completed with beautifully designed technologic elements and visual systems. Boardrooms, conference rooms, educational or historical places are only a few examples where the systems can be integrated.

# VISUAL SYSTEMS

Whether educational, commercial, public, entertainment environment or a corporate arena, visual systems can improve any presentation or event. Our installed systems provide a state-of-the-art look to all of your projected images. With a single push of a button, you will be off and running, giving you all the tools you need to succeed. You no longer have to huddle around a monitor to view presentations. LED displays, projectors and digital signage equipment have quickly become the centerpiece of functional and interactive environments. MatrixPRO is deeply rooted in video technology and will work with you to find an effective solution for any budget.

Even your space is dark or filled with tons of natural light, your partner team can match the right visual systems with your needs in order to impress your audience or guests while integrating the most reliable screens and interfaces.

# ENTERTAINMENT LIGHTING

MatrixPRO is ready to be your sole partner for challenging and groundbreaking projects. Whether permanent installations or not, our solutions will complete your show design from corporate to public use such as live music tours and festivals, theatre, television, film and sports.

With our industry leader partners, experts in each range, we can select a mix of products for you to have a flexible rider or an effective installation. With a wide range of products integrated to your stages or venues, your audience or guests will spend unforgettable moments while the lights complete the scene.

# PROFESSIONAL AVL AUTOMATION

A smart home automation system adds convenience, comfort and peace of mind to your place if you are enthusiastic about your lifestyle. Systems for music, video, lights, climate and home security have become more intelligent nowadays by enabling you to easily operate them from a smart phone, tablet, keypad, or touch panel.

You can listen to your favorite music everywhere in your house with a single button press or set the lights and shades to create ambiance for entertaining in your open concept kitchen and living area.

Even when far from home scenarios can easily be selected to welcome you home with an atmosphere you desire for your arrival via your mobile devices. Custom-tailored lighting control allows you to change the mood of any area of your home to suit the occasion and can be completed with your favorite playlists in desired areas.

# LOW VOLTAGE SYSTEMS

## Safety First!

Systems are designed with worldwide and local authorities approved materials to ensure your safety and integrated to other systems supporting the evacuation in your building.

Security is always an aspect of concern for all to ensure protection of self and family members, property, offices or big public spaces. The use of security cameras is considered as one of the most effective ways of deterring criminals keeping away intruders and even for checking related areas when you are miles away.

MatrixPRO product and solution range includes video surveillance systems with state-of-the-art IP-solutions, Access Control Systems, Intrusion Detection Systems, and Security Management Systems all of which are designed to minimize your lifetime cost of ownership.

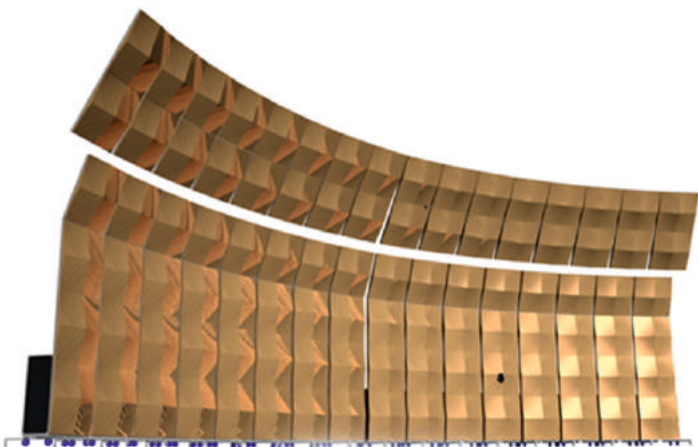

# ACOUSTIC TREATMENT

Room acoustic shall be your major priority while starting your project. No matter if it's related to a musical event or for speech for your audience, appropriate room acoustic has to be created while keeping your interior design as much as the same. Because only after this phase is completed, you will be able to get the real performance from your sound systems.

If reverberation or uncontrolled noise is ignored in the beginning, unexpected results will be inevitable in the end.

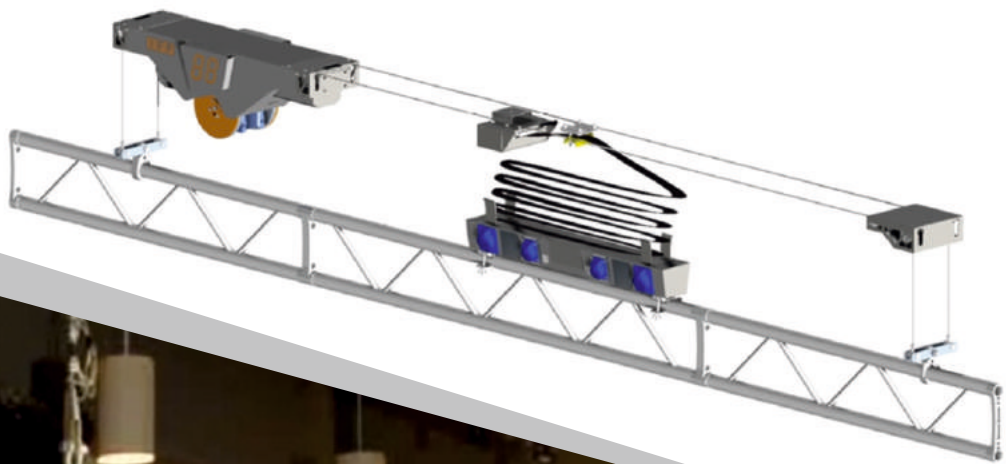

Absorbent, diffuser, traps and isolation elements can be used to control the sound within the room to ensure the right environment for areas with music, speech and announces.

To avoid loss of time and budget; we would be pleased to provide you planning in advance with our acoustic simulations to give you a projection of your application.

# STAGE MECHANIC&TEXTILE

Spectacular stages impress the audience. Variations during your events can provide you flexibility while designing the shows or performances. We will submit you the most secure and reliable solutions with when you are starting to build your dream venue, while taking in consideration possible maintenance costs in future.

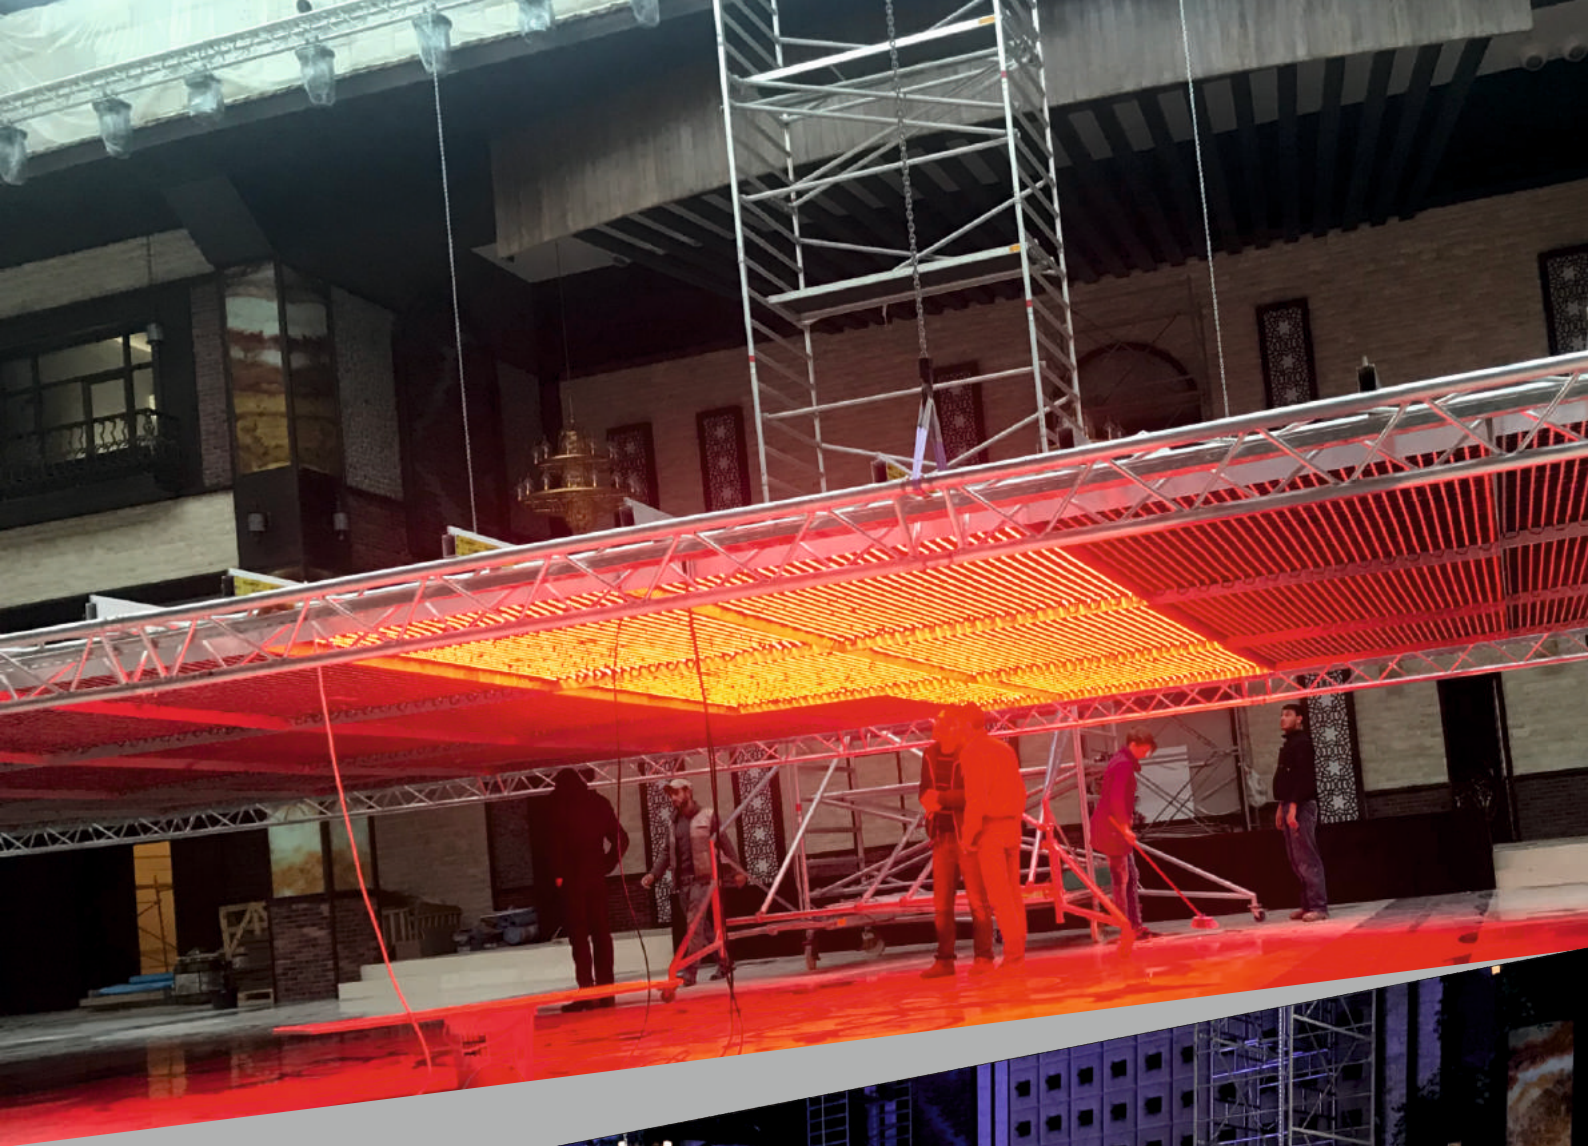

Stage textiles and seating systems are the makeup of your venue's engineered strong mechanical background.

We are here to help you to create unforgettable spaces even if it is classical or modern designed.

# INSTALLATION & AFTER SALES SERVICE

Our team will execute your systems' installation starting from the cabling until the delivery phase with a timeline suitable for your targets according to the planning agreed in project design stage. All equipment will be secured and be ready to work with their best performances for long-term use. Our technicians and engineers will integrate and program the systems in the simplest way for an ergonomic user experience.

Depending on your equipment configuration, support on site or remotely will be provided after the sales. Beside the standard warranty program, you can knock our door for assistance whenever you need.
